Traffic report for FlyMe August 2006 – almost triple the number of passengers

FlyMe continue to grow. The August figures for the total traffic show a passenger number of 71 300, compared to the same month last year when the number was 26 100. The investment to increase the number of domestic departures has had a positive start.

FlyMe Europe's CEO, Finn Thaulow, comments:

- FlyMe has gained good feedback on the increase of domestic departures. As from August 21, we fly eight times daily between Gothenburg and Stockholm and seven between Malmö and Stockholm. We now have a comprehensive traffic program to satisfy all our travellers' needs. The build up of the European routes are moving according to plan, and it is a pleasure to see that more and more people take the chance and discover Europe with us.
