Traffic report for FlyMe September 2006 – almost 70 percent load factor on international

In the traffic report for September 2006, FlyMe compare the figures for this year's domestic traffic with last year's domestic traffic. The international traffic follows the same principle. The domestic traffic shows a load factor of close to 70 %.

Finn Thaulow, Group CEO, Fly Me Europe AB, comments on the report:

“We are very happy with the reponse we have had for our international routes. As for domestic traffic, we more or less keep the same load factor as last year, despite having doubled the capacity. This is pleasing.”
